Mrs. Ericksen,

In the last correspondence from the Division of Oil, Gas and Mining (DOGM), you gave Staker & Parson Companies the date of January 30, 2008 to submit a highwall maintenance plan. Based on recent requirements wanted by DOGM regarding the highwall plan, we will be unable to meet the date of January 30, 2008 to gather the required information to present to DOGM. Staker & Parson Companies is requesting an extension to February 27, 2008 to gather the appropriate information to appropriately address all the concerns DOGM has regarding the Beck Street highwall.

We appreciate your attention regarding this issue,

Mike Dalley
